Work Done by Humane Officer.

B. B. Mann Sees That Animals Are Net III-Treated.

What He Hopes to Accomplish With the Support of Public Spirited Citizens.

There are not many people in Sali Lake who know that there is a city humane officer. This is a new public office created by the Revised Ordinances of 1903. The first incumbent of the office is B. B. Mann, appointed by Mayor Morris soon after the inauguration of the present administration The ordinance provides that the appointee shall not only be a competent but a humane person. This Mr. Mann most certainly is and it is his policy to be humane in the prosecution of his duties

Has Police Authority.

The incumbent of the humane office believes in dealing humanely with ven those who grossly violate the ordinances against cruelty to animals. He has police authority and may make arrests for violations of the city ordi-

Animals Have Rights

'Animals have rights as well as peo-"Animals have rights as well as peo-ple," says Mr. Mann, "and it is my in-tention to see that the rights of the lower animal are respected by the superior animal. The humane officer, however, must deal with violations in a different manner than do officers with violations of other ordinances. He must set a humane example by dealing humanely with offenders. I do not mean to imply that other officers not mean to imply that other officers are not humane, but I do mean that the humane officer must arouse an intcrest and a sympathy in the inferior animal by precent and lenlency rather than by arrests and presecutions."

Has Decrepid Horses Killed. Mr. Mann says that he has been obliged to have many old and decrepid horses and other animals killed, and that the owners often objected very strenuously at first to having the ani-mals shot. He says they would argue that they had given a good price for the horse and that they believed he would get better; but after talking with the owner for awhile he has al-

ways seen the necessity for terminat-ing the animal's misery and willingly consented to have him put to death. Women Are Interested.

The women, he says, are taking con-siderable interest in the work and very often make complaints about drivers and teamsters who mistreat their horses. As stated in The Tribune a short time ago, Mr. Mann has been investigating the different methods employed in the large cities of the United States for the destruction of unlicensed dogs. Mr. Mann still be-lieves that it is better to destroy the dogs with a high voltage of electricity than by shooting as at present. He is having experiments made for per-fecting an appliance that will send the

electric shock through the animal's body without in any way endangering the life of the operator. It is hoped by Mr. Mann to awaken an interest in the citizens of this city in their dumb friends that will insure

kind treatment of all animals. Health Board Reports.

The report of the Board of Health for week ending July 16, 1904, shows a total week ending July 16, 1994, shows a total of thirty-one births, nineteen males and twelve females. The death report for the same period shows seventeen, of which fifteen were males and two females. No scarlet fever is reported, leaving the city clear of the disease. One case of diphtheria was reported, one discharged, leaving one in quarantine. Two cases of smallpox were retine. Two cases of smallpox were re-ported, two discharged, leaving seven in quarantine at the close of this report. One case of measles was reported and quarantined

Settled the Case With Her.

Many great discoveries have been made by accident and things better than gold mines have been found in this way, for example, when even the acidental discovery that coffee is the real cause of one's sickness proves of most tremendous value because it locates the cause and the person has then a chance to get well.

cates the cause and the person has then a chance to get well.

"For over 25 years," says a Missouri woman, "I suffered untold agonies in my stomach and even the best physicians disagreed as to the cause without giving me any permanent help, different ones saying it was gastritis, indigestion, neuralgia, etc., so I dragged along from rear to rear, always half sick until finally I gave up all hopes of ever being well again.

"When taking dinner with a friend one day she said she had a new drink which turned out to be Postum and I liked it so well I told her I thought I would stop coffee for awhile and use it,

"So for three months we had Postum in place of coffee without ever having one of my old spells, but was always healthy and vigorous instead.
"Husband kept saying he was convinced it was coffee that caused those spells, but even then I wouldn't believe it until one day we got out of Postum and as we lived two miles from town I thought to use the coffee we had in the house. in the house.
"The result of a week's use of coffee again was that I had another terrible spell of agony and distress, proving that it was the coffee and nothing else.
